

SAFE AREA

Please keep text, images, logos etc inside the green frame. Anything outside this frame may be cut off during trimming.

TRIMMING LINE

The product will be cut along this line to the final product size. We recommend no borders due to shifting in the cutting process (borders may appear uneven).

BLEED 0.05 INCHES ON EACH SIDE

The final document size always includes bleed on each side, which will be cut off after printing. Extend background images, colors etc exactly to the black line and don't use crop- or printmarks.

Final Product Size: 8 inches x 2 inches
Final Document Size (incl. Bleed): 8.1 inches x 2.1 inches

Important Notes

- All lines and elements in this document are for demonstration only and must be erased in your final artwork.
- To avoid font errors, all text in your final EPS, PDF and AI-files should be converted to outlines.
- Misprints due to wrong fonts, resolution, color, size, etc will not be reprinted or refunded. Please refer to our website for more information about file preparation. To be on the safe side please order a proof of your files.
